THEY SAY

—That what is to be—will be—see?

—That the world hates a coward. Be men.

—That whatever you put into life is what you'll get out of it.

—That the white folks have forgotten the Hun both at home and across the sea. Too busy fighting Negroes.

—That that Negro who came down Woodland at a mile a minute with his shoes and his shirt in his hands last week must have been hurrying to catch a train or—

—That a certain sweet thing married recently so she "would not have to work so hard," then she only worked half a day, now she is working 18 hours a day.

—That the Negro who has no bathing facilities at home should enthusiastically take advantage of those provided by the city on the Paseo and Garrison Square.

—That the man who tries to save a few dollars and makes no effort to save his soul is a d— fool in every sense of the word.

—That those Negroes who do not know how to conduct themselves decently in an automobile should not be allowed in an automobile. Save us all trouble.

They say that if you will call West 380, you'll hear something to your advantage as well as for your health.—Adv.
